

Project report – Research briefings

Background

We have produced small numbers of briefings in the past and have the Sustainability Insights series. In general, though, we had limited numbers of briefings on relevant issues.

Timing

Throughout 2015-16

Location

Global

Partners

None

Methodology

We briefed staff on a range of relevant issues and topics related to population. The staff members then carried out desk research and drafted the briefing.

Outputs

Around thirty briefings were produced on a wide range of subjects.

Beneficiaries

The beneficiaries are humanity and other species, both now and in the future, who benefit from a reduced population size.

Impact

Measuring impact was not affordable.
